MASSAGE CANDLE OIL
PEACH - 35g / 150g**

The aromatic fragrances of Dermastir Candle Massage Oil are made in Grasse. Grasse is the center of the French perfume industry and is known as the world's perfume capital. It produces over two-thirds of France's natural aromas.

It is important that the essential oil of the candle is of excellent quality. Grasse, the place of origin of Alta Care Laboratoires' candles, is a guarantee of this superior quality. The texture and smell of these candles will make all the difference.

Alta Care Laboratoires is offering you products designed to give you the ability to pamper yourself as if you were vacationing in the world's most luxurious spa. Experience the vibrant fragrances and silky feel of our massage oil

candles. This candle when heated, besides providing you with a home fragrance system, will also make available a warm body oil, ideal for a massage treatment and a natural moisturizer for hands, feet and other dry skin areas of your body.

An interesting aspect of essential oils is that they work on many different levels. Massage is a complementary therapy that, when performed with love and care on affected areas, can evoke many beneficial changes within the body, mind, and spirit of the whole person. At scent level they activate the limbic system and emotional centers of the brain. When applied to the skin in the form of "massage oils", besides moisturizing, toning and relaxing it, they also activate thermal receptors.

MADE IN FRANCE

CANDLE OIL MASSAGE

LEAVES A PLEASANT SMELL IN THE ROOM
