DERMASTIR LUXURY WRINKLE FILLER

Dermastir Wrinkle Filler is an instant anti-wrinkle treatment with a dual action: a filling action that fills the wrinkle, and a myorelaxing action that can relax wrinkles. Dermastir Wrinkle Filler is able to relax and smooth out both superficial and deep facial wrinkles.

Dermastir Wrinkle Filler reduces expression lines and wrinkles immediately after application; it reduces the appearance of wrinkles on the forehead, it counteracts the relaxation of the eyelid and makes expression lines around the eyes and around the lips less visible.

It can also reduce the appearance of skin blemishes such as acne scars, stretch-marks, rosacea and large pores, since the volume of the dermal matrix increases by three times when compared to the norm.

ALL SKIN TYPES

AIRLESS TECHNOLOGY

PHYTOEXTRACTS

HYALURONIC ACID

PENTAPEPTIDES

LECITIN

COLLAGEN
