

DERMASTIR SUN PROTECTION SPF 50+

Dermastir Sun Protection prevents and delays wrinkle formation. Dermastir Sun Protection factor 50+ is a must for skins that are prone to pigmentation. The sun protection factors and the ingredients are also guaranteed after opening thanks to Dermastir airless packing. It consists of 3 jars nested into 1; a protective effect is created as a result of which the filters in the cream are protected from the UV rays of the sun.

AIRLESS
PUMP TECHNOLOGY

- WHITE
- TINTED

Dermastir Sun Protection SPF 50+ is available in a white and a tinted version.

CHEMICAL FILTERS

Ethylhexyl
Methoxycinnamate

PHYSICAL FILTERS

Titanium Dioxide

Sun Protection Filters are protected from oxidation, conductive heat, infrared rays, radiant heat, light, oxygen, bacteria and humidity.

DERMASTIR SUN POWDER SPF 50+

The Dermastir sun powder has a mattifying effect on the skin and this compliments the sweating that happens to the skin when exposed to the sun.

Active Vitamin C has been added to prevent pigmentation.

DERMASTIR FILLER SUN POWDER SPF 50+ PA+++

A truly innovative and multifaceted product, Dermastir Filler Sun Powder SPF 50+ takes sun protection to a whole new level! A surprisingly fine powder that acts as a filler using nanotechnology to penetrate the wrinkles, protecting them from further damage caused by UV rays and reducing their visibility.
