

Dermastir Twisters Eye & Lip Contour

This high performance, anti-ageing eye and lip serum is based on a purified extract derived from padina pavonica, a particular brown algae with an effective protective shell. Like its active ingredient, Dermastir Eye & Lip contour twister protects and improves the delicate skin around the eyes and lips, strengthening the natural defense system against free radicals and everyday irritants, like stress and pollution. Hydrated and revitalised, the skin regains its former elasticity, suppleness and vitality. Excellent results are seen in cases of dark circles and eye contour bags.

INGREDIENTS:

- **PADINA PAVONICA:** Padina pavonica is an extremely strong anti-ageing active ingredient. This warm-water brown algae exudes substances that act directly on the glucosaminoglycans or GAGs, found in the epidermis. GAGs concentration decreases with age, causing epidermal thinning and drying, and therefore, the appearance of wrinkles. When applied to the surface of the epidermis, padina pavonica enhances structure, and helps the skin become firmer, making wrinkles less visible.
- **C12-C15 ALKYL BENZOATE:** This emollient produces a soft, smooth, non-greasy application.
- **METHYL METHACRYLATE CROSSPOLYMER:** These ultra-fine, hollow, spherical particles feature a tremendous capacity for water or oil absorption, giving the formulation a dry and powdery characteristic.

Dermastir Twisters CoEnzyme Q10

These single-dose softgel twisters with pure CoEnzyme Q10 reduce fine lines and wrinkles to maximize smoother, younger and even toned skin. CoEnzyme Q10 is presented in convenient, single-dose softgels sealed for purity. Benefits of Dermastir CoEnzyme Q10: it strengthens the skin by supplying more oxygen to the cells and diminishes lines and wrinkles since cells are toned because they do not lack oxygen. The CoEnzyme Q10 supports collagen production. CoEnzyme Q10 is particularly indicated for very dry skin conditions like chapped hands or cracked heels.

INGREDIENTS:

- **UBIQUINONE (CoEnzyme Q10):** In most people over thirty, levels of Co.Q10 in the skin are below optimum, resulting in a decreased ability to produce collagen, elastin and other important skin molecules. Besides, Co.Q10-depleted skin may be more prone to damage by free radicals, which are particularly abundant in the skin since it is exposed to the elements. Thus, Co.Q10 may boost skin repair and regeneration and reduce free radical damage. Furthermore, Co.Q10 transports oxygen and is a small molecule that can relatively easily penetrate into skin cells.
- **SQUALANE:** Present in human sebum and in olive oil, it prevents wrinkles apparition and protects and smoothes the skin. Squalane also serves as a penetrating agent to carry the CoEnzyme Q10 into the skin.
- **WHITE TEA (THEA SINENSIS):** It contains flavonoids, which have anti-oxidant properties.

Dermastir Twisters Retinol

Very innovative, this smooth, anti-wrinkle transparent serum is lipophilic based, giving the skin a silky, slightly powdered finish. Dermastir Retinol Twister is an enriched anti-wrinkle serum featuring retinol (vitamin A), squalane, and white tea extract for calm, firm and radiant skin. Excellent results have been observed also in cases of pigmentation. Dermastir Retinol Twisters is a lipophilic serum that can also be used post-op because of its occlusive properties.

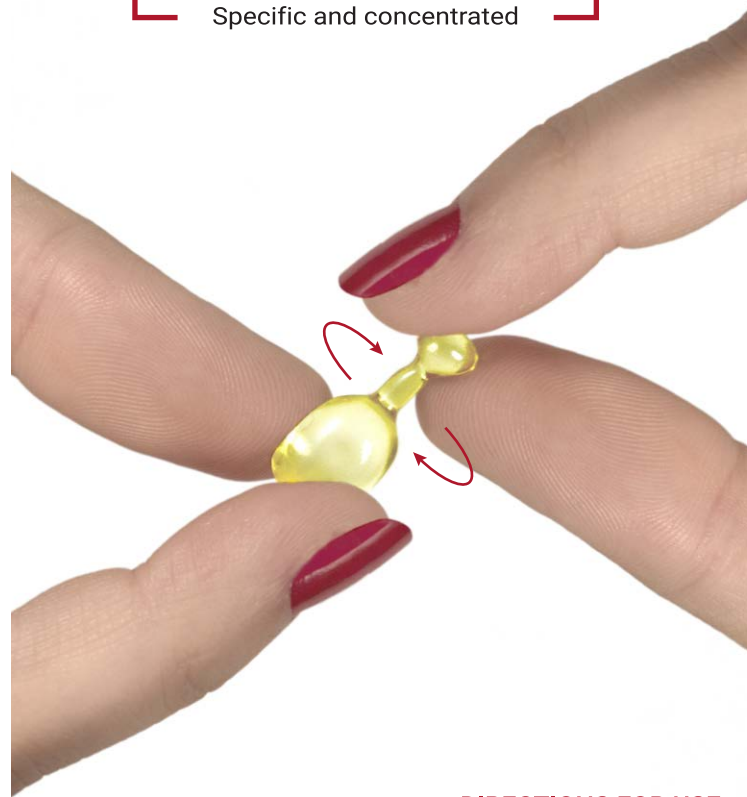

INGREDIENTS:

- **RETINOL (VITAMIN A):** It reduces roughness, wrinkling and pigmentation caused by accumulated sun exposure, and significantly increases skin moisture levels. Retinol has also been found to increase skin elasticity and to smooth rough skin.
- **SQUALANE:** Present in human sebum and in olive oil, it prevents wrinkles apparition and protects and smoothes the skin. Squalane also serves as a penetrating agent to carry the retinol into the skin.
- **WHITE TEA (THEA SINENSIS):** It contains flavonoids, which have anti-oxidant properties.

SERUMS MONODOSE

Specific and concentrated

DIRECTIONS FOR USE

Twist off and gently squeeze contents of softgels onto fingertips. Each softgel contains a single application.

ANTI-AGE
SKIN BRIGHTENING

Dermastir Twisters CoEnzyme Q10

Apply on cleansed face and throat. Allow formula to be absorbed completely, then apply day or night treatment. It can be used both in the morning or in the evening.

EYE BAGS
DARK CIRCLES
WRINKLES

Dermastir Twisters Eye & Lip Contour

Apply on the eye or lip contour. Allow formula to be absorbed completely, then apply day or night treatment. It can be used both in the morning or in the evening.

ANTI-WRINKLE
ANTI-PIGMENTATION

Dermastir Twisters Retinol

Apply on cleansed face and neck. Massage all over the face. Apply the serum more abundantly in wrinkled or pigmented skin areas at night.
